

#### Exhibit 4: American Tourister Building in Warren

The American Tourister Building, located on R.I. Route 114 (Main St.), is a very large mill, three stories tall, and connected to a warehouse with several loading docks. It is presently in partial use, mostly by Samsonite, and mostly on the first floor. Some upper floor space is being used for storage, but windows need to be replaced. Loading areas (*below*) appear large enough for tractor trailers, with relatively easy access. *Photos by Niverio Carvalho*
